## Company Profile

Sinoblong offer all kinds of mechanical parts and components based on technical drawing or sample.

Our Competitive advantages: One-Stop Shopping from "Drawing to Part".

Mainly products of us includes motorcycle spare part, metal casting part, forging parts, Stamping parts, powder metallurgy parts and CNC machined parts

They are widely used in automotive industry, such car, motorcycle, forklift, loader crane, mining, as well as other agricultural, municipal, engineering and air tool machinery.

Our services:

Product managements: When you start working with Sinoblong, a sales manager together with a product manager are assigned to work directly from beginning to end.

Our sales manager will negotiate with our domestic suppliers to get your company the lowest possible cost solution.

After negotiating with our suppliers, Our product managers will supervise all sample and production runs. The product managers will assist customers in other necessary activities such as forecasting, lead time reduction, cash flow improvement planning, and supplier consolidation.

We would like to take high quality products, perfect service to seek your cooperation and common development.

## Our Factory

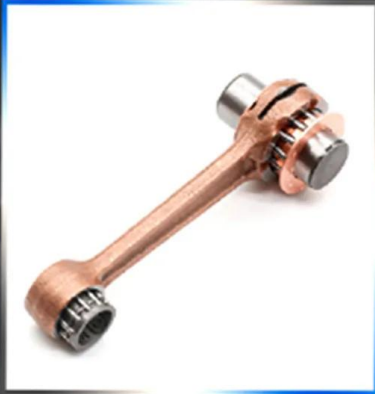

SinoBlong located in the third largest sea port of China-Qingdao and have rich experience of exporting for casting, forging and stamping process.

You offer drawing, we submit products. SinoBlong will be your best partner and let you rest assured

## MOTORCYCLE CRANKSHAFT

## CASTING

## POWDER METALLURGY

## CNC MACHINING

## STAMPING

SinoBlong Machinery Fittings Co. Ltd mainly process is investment casting for stainless steel and carbon steel, stamping metal fabrication, Close forging for carbon steel, powder metallurgy for brass and iron powder.

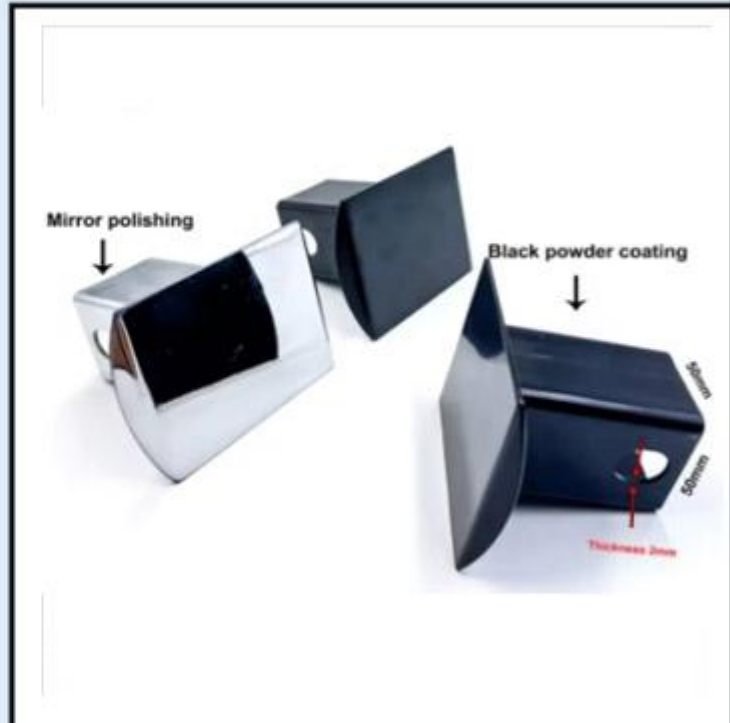

## Casting Process

We produced the stainless steel investment casting, aluminum die casting and sand casting based on customer drawing/samples. They are mainly used for auto spare part , pipe and valves

## Stamping Process

We produce different kinds of metal fabrication parts based on customer drawing or samples.

So the TV bracket, air conditioner bracket, stainless steel bracket, aluminum bracket. ...

All of them can be produced by stamping and bending process. Sometimes need welding.

## Forging motorcycle parts

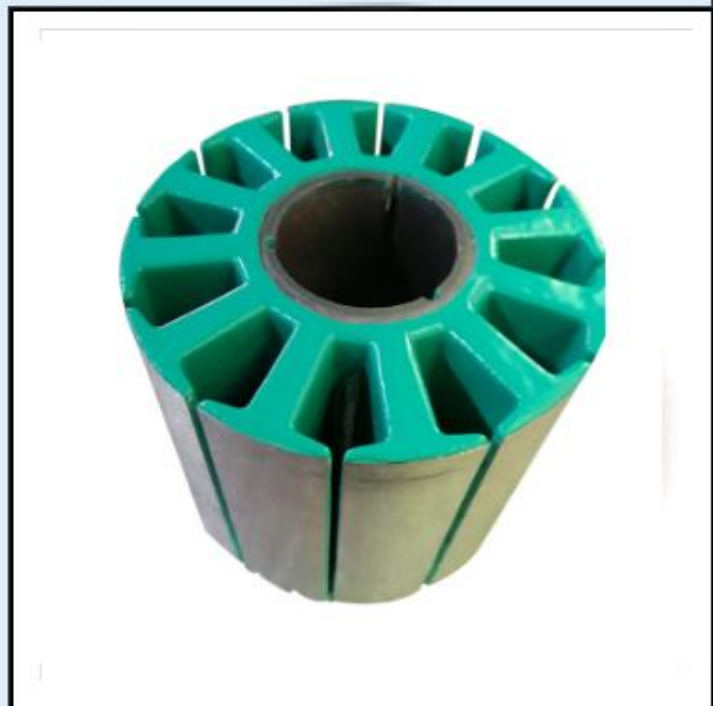

SinoBlong have plant produce the motorcycle forging connecting rod and crankshaft for more than 20 years.

No matter standard connecting rod or customized forging part, we all support.

If the standard part, you can just tell us your Model No. But the customized connecting rod, drawing first.

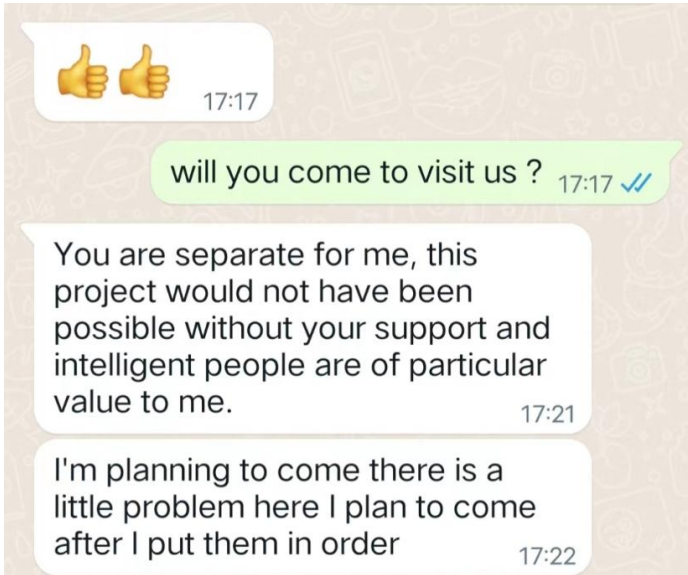

## Powder Metallurgy Process

We can produce the Brass/copper/iron powder parts, such as gear, bushing, stator based on customer drawings. But for the stator, we can produce based on special material:

Somaloy 700HR 1P( magnetic material)

# The feedback from customers for our service and products quality:

Dear Emily,

I want to say: Thank you!

The shipping was delivered today; in a pretty perfect condition. The packaging was over top; better we often had here!

The parts themselves are in the quality we are imagine having! Thank you too!

We will see how quick we can sell the frame parts and what parts we will do next! I contact you soon!

With best regards,

Dear Emily,

I know you make good quality so I trust in your quality. You don't need to send a sample if you guarantee the part is like the original.

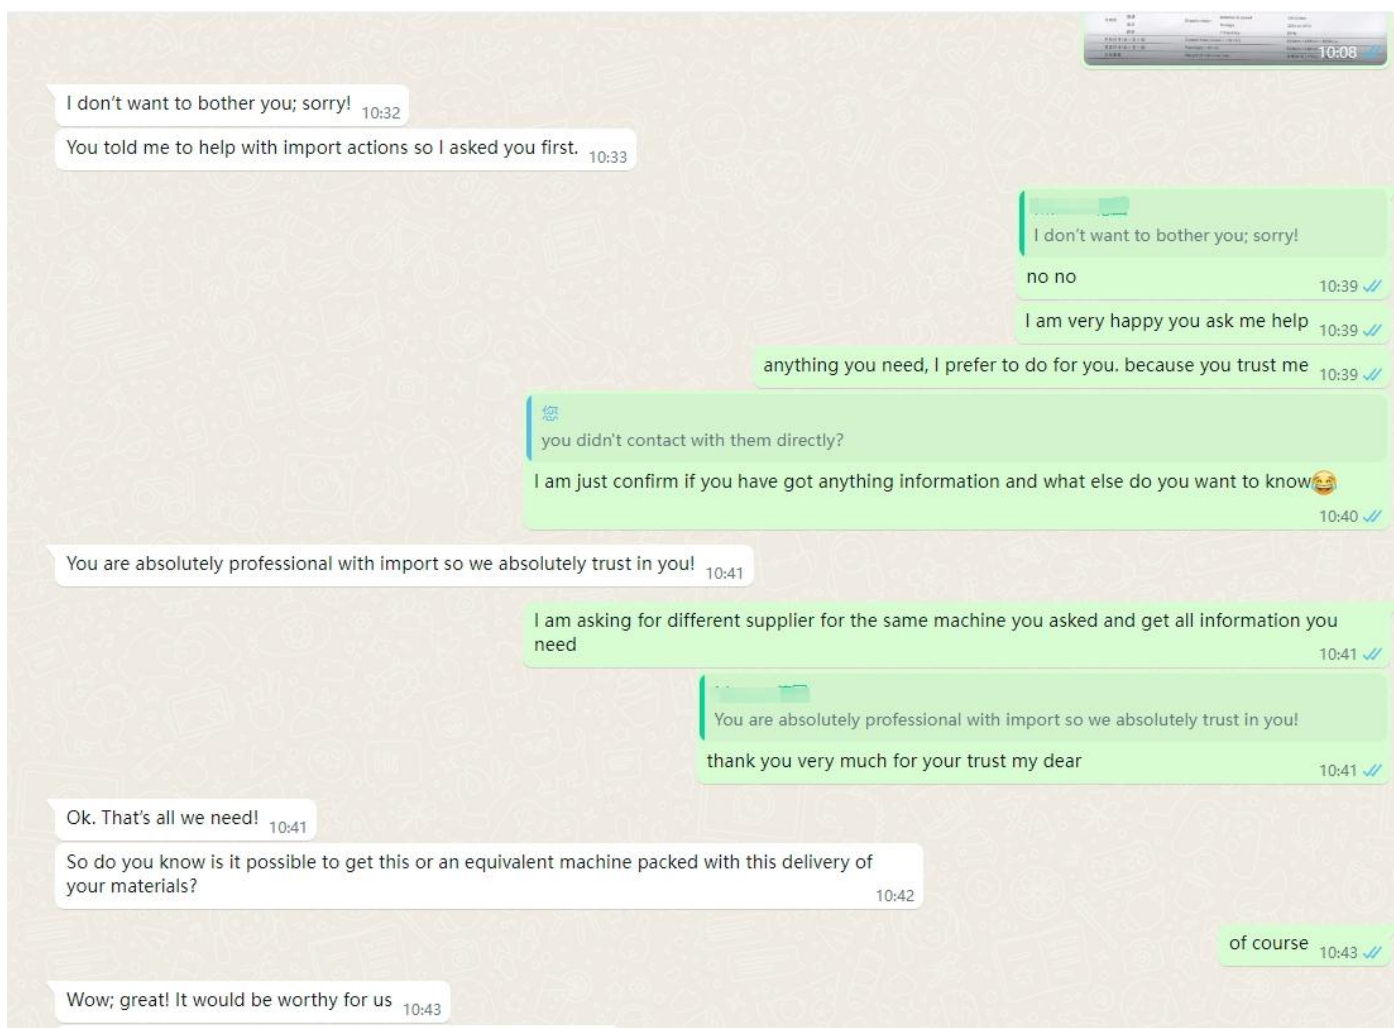

So in addition if you want to send us some parts for testing purposes so we can check if we can sell them here.

○ will pay in some minutes. Please tell me as soon as the payment arrives you.

Für Rückfragen stehen wir gern zur Verfügung und verbleiben mit
